ACKNOWLEDGMENTS

1. The Examiner acknowledges receipt of the amendment filed 9/14/07 wherein claims 1, 11, and 46 were amended and claims 33-36, and 38-44, 54, and 55 were canceled.

Note: Claims 1-32, 37, 45-53, and 56 are pending.

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9/14/07 has been entered.

RESPONSE TO APPLICANT'S AMENDMENT/ARGUMENTS

3. The Applicant's arguments and/or amendment filed 9/14/07 to the rejection of the claims made by the Examiner under 35 USC 112 and/or double patenting have been fully considered and deemed persuasive-in-part for the reasons set forth below.

112 First Paragraph Rejection

The 112 first paragraph rejections are WITHDRAWN because Applicant has amended the claims to overcome the rejections.

112 Second Paragraph Rejection

The 112 second paragraph rejections are WITHDRAWN because Applicant has amended the claims to overcome the rejections.

10/699,562 Art Unit: 1618

Obviousness-Type Double Patenting Rejection

Claim 11 is provisional rejected on the ground of non-statutory obviousness-type double patenting as being unpatentable over claims 1, 6, and 21 of copending application number11/133,804 for reasons of record in the office action mailed 6/14/07.

Claim 11 is provisionally rejected on the ground of non-statutory obviousnesstype double patenting as being unpatentable over claims 1, 6, and 21 of copending application number 11/437,095 for reasons of record in the office action mailed 6/14/07.

Note: It is duly noted that Applicant respectfully requested that the double patenting rejections be held in abeyance until such time as the application is otherwise deemed to be in condition for allowance.

WITHDRAWN CLAIMS

4. Claims 49-53 are withdrawn from further consideration by the Examiner, 37 CFR 1,142(b), as being drawn to a non-elected invention.

ALLOWABLE CLAIMS

5. Claims 1-10 and 46-48 are allowable over the prior art of record.

CLAIM OBJECTIONS

6. Claims 12-32, 37, 45, and 56 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

COMMENTS/NOTES

7. It is once again noted that no prior art has been cited against the instant invention. However, Applicant MUST address and overcome the double patenting

rejection. In particular, the claims are distinguished over the prior art of record because the prior art neither anticipates nor renders obvious molecular products as set forth in independent claims 1, 11, and 46 comprising SEQ ID No. 1.

8. Applicant is reminded of the rejoinder paragraph which appeared in the restriction requirement mailed 7/13/06. In particular, the paragraph discloses that since the Examiner required a restriction between product and process claims, withdrawn process claims that depend from or otherwise include all the limitations of the allowable product claim will be rejoined in accordance with the provisions of MPEP § 821.04. Process claims that depend from or otherwise include all the limitations of the patentable product will be entered as a matter of right if the amendment is presented prior to final rejection or allowance, whichever is earlier. However, in the event of rejoinder, in order for the claims to be allowable, the rejoined claims must meet all criteria for patentability including the requirements of 35 U.S.C. 101, 102, 103, and 112. Until an elected product claim is found allowable, an otherwise proper restriction requirement between product claims and process claims may be maintained. Withdrawn process claims that are not commensurate in scope with an allowed product claim will not be rejoined. See "Guidance on Treatment of Product and Process Claims in light of In re Ochiai, In re Brouwer and 35 U.S.C. § 103(b)," 1184 O.G. 86 (March 26, 1996). Additionally, in order to retain the right to rejoinder in accordance with the above policy, Applicant is advised that the process claims should be amended during prosecution either to maintain dependency on the product claims or to otherwise include the

Art Unit: 1618

limitations of the product claims. **Failure to do so may result in a loss of the right to rejoinder.** Further, note that the prohibition against double patenting rejections of 35 U.S.C. 121 does not apply where the restriction requirement is withdrawn by the examiner before the patent issues. See MPEP § 804.01.

In the instant invention, the claims have not been rejoined because they are not commensurate in scope with the product claims. Furthermore, it should be noted that the withdrawn process claims have not been reviewed for double patenting issues with other applications filed by Applicant. In addition, it is noted that the claims have 112 first and second paragraph issues.
